Concepts Test Problems

#1, 3, 4, 7, 16

Sample Test Problems

#1-6 all, 8, 11, 12, 15, 16, 18-23 all

*If you want extra practice with story problems, you can also do

2.8 #4, 13

3.4 #6, 8, 14, 15

The test covers everything we've covered in this class. I can guarantee that there will be problems on the test (probably about 40-50%) that cover chapter 5, since that hasn't yet been covered on a midterm. The rest of the exam will focus on the other stuff. If you want a good idea of what I think is important from the semester up to the third midterm, review your midterms. :)

You can use your calculator. You can also bring a 5x8 inch note card of notes (on both sides, if you want) to use as a reference.
